I am currently working as an associate dentist at Sherwood House Dental Practice. Previously I have worked as an associate dentist and as a foundation dentist at three different practices. During that time I have learned a great deal, and gained a tremendous amount of practical and theoretical experience. My main duties include:

- Examining patients' teeth and gums to diagnose and treat various oral health issues.
- Providing dental treatments to patients, including routine cleanings, extractions, dental restorations (direct and indirect), teeth whitening, bonding, and applications of dental crowns, caps, and veneers.
- Educating patients on good oral hygiene practices and advising them on proper aftercare following certain dental procedures.
- Administering local anesthesia to patients as needed.
- Utilizing X-rays and computer-generated imaging to assist with examinations.
- Taking impressions of patients' mouths for the fabrication of customized mouthguards and dentures.
- Prescribing antibiotics and pain medications to patients as required.
- Ensuring that all dental instruments and equipment are sterilized before each use.
- Performing oral cancer screenings.
- Worked on both EXACT SOE and Systems for Dentists (SFD) dental practice management software.
